### LAPRAIRIE.

An extensive municipal village and parish on the south shore of the River St. Lawrence, between the Lachine rapids and Victoria bridge, district of Montreal, seigniorly and county of the same name. Incorporated March 30, 1846. The parish was erected on the 17th November, 1870. A market is open every day. An aqueduct is constructed. The first railway in British North America was constructed from here to St. Johns in 1836. It was first worked with horses, afterwards by steam, but was discontinued, and the rails taken up a number of years ago. A steamboat maintains regular communication between Montreal and Laprairie. A branch of the Grand Trunk Railway, starting at Fort Covington, in the State of New York, to reach the Victoria bridge, now runs twice a day in close proximity to the village, with a good station and depot, and contributes materially to the future development of the locality, which is considered a very healthy and pleasant summer place. There is also a fire station, thoroughly supplied with new fire apparatus, such as a fire engine and hook and ladders. Fishing and hunting is also largely practised. A new billiard room has been organized. A permanent wharf has been erected, and will be much improved during the present summer. A new channel is also talked of. The aqueduct is now giving a very good service to the village, and the work of putting up pipes is being done very rapidly in the different streets. The pressure of water in case of fires is also very powerful, as the water is drawn by steam and air pressure, which brings it at a distance of 1,300 feet, from the St. Lawrence river. The premiums upon insurances has also been greatly reduced on account of the recent ameliorations to the fire system apparatus. Great North Western Telegraph Company has an office here. Distant from Montreal, 9 miles, fare 15 cts.; from St. Johns 18 miles. Mail daily. Population of village 1,550; of parish 2,200.

## TOWN OF ST. HENRY.

(Incorporated in 1876.)

An incorporated town, adjoining the City limit of Montreal, and formed by the amalgamation of the former villages of Tannery West and Coteau St. Augustin. The Town of St. Henry is situated in the seignior of Montreal, county of Hochelaga and district of Montreal. The Lachine canal passes on the south side, and signal stations of the Grand Trunk Railway are situated here at the junctions where the roads branch off east and west, and to Montreal and Lachine. The Grand Trunk Railway Co., with the aid of the Council of the Town, has erected a splendid station, at the curve, near the St. Joseph street bridge. The municipality of St. Henry is governed by a Mayor and Corporation, and a separate permanent Fire and Police force is maintained. The town contains a new Roman Catholic college and convent, church and presbytery, and several important industries, amongst others two extensive tanneries, boot and shoe factories, brick yards, the C. W. Williams Manufacturing Co., employing 600 hands, a cotton manufacturing Co., one of the finest in the Dominion, and a public Abattoir and stock yard Co. The Council has built a very fine Town Hall, Fire and Police station at the corner of St. Henry and St. Bonaventure streets, at the cost of \$25,000. Building is being prosecuted briskly, and the town bids fair to rise into some importance, having Fire and Police system of alarm telegraph. The town is now lighted by gas and oil lamps. Distance from Bonaventure depot 24 miles, from Lachine 6 miles. Population about 9,000.

the course of studies, in which religious  
struction holds the first rank, is divided into  
sections—the classical and the commer-

The classical course, principally taught in  
each, is designed to impart a thorough know  
edge of the Greek, Latin, French and English  
languages and literature, pure and mixed mathe  
matics, history and geography, philosophy and  
natural sciences, and whatever is necessary as  
preparation for a professional career.

It comprises eight classes—Latin Elements,  
Stax, Method, Verification, Belles-lettres,  
Storie, 1st and 2nd year of Philosophy.

The commercial course, principally taught in  
English, embraces the English and French  
languages and literature, mathematics and the  
other branches named above, moreover book-  
keeping, and whatever else may fit a young  
man for commercial and industrial pursuits.

There are, moreover, elementary and pre  
paratory classes for younger students.

The system of education is paternal. The

progress are sent to parents or guardians.

absent themselves without previous leave from  
the College authorities.

The collegiate year is of ten months, begin  
ning in the first week of September, and ending  
in the first week of July.

Payments, which are required in gold or  
its equivalent, and strictly in advance, are

of September, 2nd on the 1st of February.

The college will not take charge of providing  
a student with clothing or other necessities  
unless a sufficient sum be deposited in the  
hands of the treasurer.

No reduction in the above-mentioned terms  
will be granted for absence of less than one  
month.

The total number of patients attended during  
the past year was 10,662. Average cost of  
each patient 11 cents.

All who desire to obtain better personal  
knowledge of the necessity for such institutions,  
their practical benefit to the sick poor, and their  
claims on the liberality of our citizens, are  
invited to visit the Dispensary about one o'clock  
on any day (except Sunday) and judge for  
themselves.

This institution furnishes medical and surgi-  
cal aid and medicines to the sick poor of every  
nationality and religion in Montreal.

The attending physicians visit at their own  
homes those who are unable to come to the  
Dispensary and too poor to pay.

In restoring to health, it restores to many  
their only means of support, and thus prevents  
poverty, pauperism and crime.

It is dependent, chiefly, upon voluntary con-  
tributions for its support.

"The Bath that cleanses the inward as well as the outward man, that is applicable to every age, that is adapted to make health healthier and alleviate disease, whatever its stage or severity, deserves to be adopted as a national institution, and merits the advocacy of all medical men; of those whose especial duty it is to teach how health may be preserved, and how disease may be averted."—*Dr. Erasmus Wilson, London.*

"If I were asked to give a brief and distinctive definition of the Turkish Bath, I would say: It is that which claims the exclusive, pre-eminent power of physiologically opening the safety valves of the living mechanism; or developing a high activity of the depurating function, of the animal body, and so fulfilling the first grand indication for the cure of all diseases."—*Dr. John Bulbinck, London.*

Apart from one of the largest, the most complete and best constructed Bath on this Continent, the Institute affords facilities for the administration of many of the various forms of Hydro-Therapeutic treatment, as well as for the practice of the "Swedish Movement Cure," and of "Massage."
